

Hello All,

For those of you who attended the Ski Jumping Judges Workshop held in April, we are hosting the second half on June 24th & 25th. This portion of the workshop will be a hands on experience. You will review footage of jumpers to understand what you are looking for when judging, and then put that knowledge to use during real live jumping sessions on the Saturday session!

Once again, your RSVP is required for this event. Please RSVP by Friday June 19th.

Below is the agenda:

Judging Clinic

Evening 1 - June 24th @ 6:00pm

- Review of judges role in competition and within the organizing committee
- Explanation of scoring system
- Discussion of Flight, Landing, and Outrun components and criteria for deductions for each component
- Review of video and discussion of deductions (hopefully of our jumpers in a recent competition along with judges marks)
- Observation of jumps from the K63 tower and facilitated discussion around deductions (hopefully this session can be videoed)

Evening 2 - June 25th @ 6:00pm

- Review of video from Evening 1 and more detailed analysis of deductions
- Individual judging from K63 tower
- Group comparison of marks

Saturday - June 27th @ 9:30am

- Practice judging in a simulated competition environment

Thanks all!
